Day 02 – (Nairobi/Samburu National Reserve)

After your early morning breakfast, you will depart for Mount Kenya's Samburu National Reserve. The drive to Mount Kenya is 335 km's and will take approximately 5 hours in total. Your morning drive to Samburu will bring you through the fertile Kikuyu land and other points of interest which will be highlighted by your Wildlife Safari guide. Along the way to Samburu National Reserve, we will stop for lunch at a local Kenya cafe'.

Samburu National Reserve was established in 1985. It is mainly comprised of a hilly arid terrain with ravine forests, doum palms, acacia woodland and scrubland. Due to the type of dramatic and rugged landscape, Samburu brings a different type of Safari experience than the other Kenya Reserves. Since it is located in a rather remote location of Kenya, it brings fewer tourists and remains abundant in wildlife. Samburu is also noted for its colorful Samburu nomad tribes located through-out the region.

Samburu has a permanent water supply that's like a magnet for the numerous animal species, which include the big Cats, herbivores and reptiles such as crocodiles. Samburu is one of the few parks where leopard spotting are frequent. Samburu also offers superb bird-watching with numerous weaver birds, the marial eagle and the blue legged Somali ostrich.

Following your afternoon game drive, you will arrive at Sopa Samburu Lodge located in the middle of the park. This wonderful Lodge is where

you will enjoy a wonderful dinner and a relaxing evening stay.

During your exploration of this reserve, you will visit the monument dedicated to the late Joy Adamson who died in 1980. As a point of interest, the filming of the movie "Sheena Queen of the jungle" and the third season of the television series "Survivor" was also filmed at this location.
